THE "OUT-U-KUM"

WEED PULLER

An Entirely New Principle

A slight Push and Pull thoroughly loosens the surrounding soil and removes not only the weed, but the entire root.

When pushed into the ground, the two points guide the BRIDGE down alongside the weed, loosening the soil from that side. It then crosses under the root disengaging the latter. As the tool is withdrawn the BRIDGE slips up the opposite side of the weed, loosening the ground from that side and engages the head of the weed above the ground. The now thoroughly loosened weed is readily withdrawn in its entirety with little or no clinging soil.

HOW WE DO IT

We use the common sense methods, or the modern business principles in use today. That is how we can offer these quality products at such low prices.

The first is standardization. Ours is a limited list of only the standard and popular varieties, where most catalogs list many hundreds, and some thousands. We offer you the best standard kinds and not every variety and strain ever grown. This cuts down the stock we have to carry, and allows us to give more attention to those items we do handle. This means better quality and service at a smaller cost. We pass this saving on to you in the form of reduced prices.

By reducing the number of items, our catalog is also reduced in size. Then we do not use a big expensive catalog having a lithograph cover and full page colored illustrations. We do not use a heavy coated paper, but a good common sense paper. We do not give great lengthy blank descriptions that really tell you nothing except to say a flower is pretty. We do not give long cultural directions as everybody knows how to raise the standard vegetables and flowers. If you desire to know more about any one of them, write us and we will gladly give you any information you desire. Personal and individual solutions to your problems is the kind of service we aim to give. This large saving of expense in the cost of our catalog we pass on to you in the form of reduced prices.

Our location in a country town gives us the advantage of lower overhead expense in labor, taxes, etc.

All these savings in expenses mentioned above and many others made possible by our methods of doing business are shared with our customers in the form of reduced prices. Why not take advantage of this?

OUR GUARANTEE

This is an unconditional guarantee placed upon all seeds, etc., we offer for sale. It is our aim that every item in this catalogue shall be truthfully described and be exactly as illustrated and if it is not and you are not completely satisfied we will cheerfully refund your money to the full extent of the purchase price paid to us.

Due to many unfavorable conditions, such as bad weather, poor soil, too deep planting or other reasons we cannot in any way warrant our seeds, plants, bulbs, shrubs, etc., and will not in any way be responsible for the crop. But if they do not grow to your complete satisfaction, you may return to us the empty packet or other container or tags and we will gladly replace the seed or refund your money to the full amount paid us.

EASY TO ORDER FROM THIS CATALOG

Our only instructions for ordering are that you carefully figure the amount of your order, enclose a remittance in full, use our order blanks when you have one. Write carefully and be sure your name and full address is given on each sheet of the order. It is also advisable for you to keep a copy of your order for reference in case the one you send us becomes lost. If you give us your order early it will be appreciated. Be sure to give name and also variety of the seeds, plants, etc., you desire. We do not ship C. O. D. See table below for Parcel Post rates and add postage to all items on which we do not pay postage. We will ship the heavier items by express, the customer paying the charges.

PROMPT SHIPPING SERVICE

We make every effort to ship all orders the same day received even during the rush season of the spring. Every order is filled in its turn just as they are received. Take advantage of this service and our low prices.

**Try the New Way To Kill Lice**

A hen worried to death with lice cannot lay if she wants to. You might as well "throw money to the birds" as feed high priced food to lousy chickens. It's a dead loss—don't do it. Use **Licemist**. No dusting, no dipping, no painting. **HANG UP THE OUT-LET.** It acts like magic. Testimonials from every State in the Union tell of wonderful results from its use. Simply put a few drops in nests and on roosts and hang uncorked bottle in the coop or hen house. Powerful fumes leave the bottle in vapor form, and penetrate feathers, cracks & crevices everywhere. Lice, mites, chiggers, bed bugs, ants, roaches, etc., have no lung—they breathe through the pores of the body, and are destroyed by Licemist vapors. It will not injure chicks.

Bottle, \$1.00; 3 bottles, \$2.50; 12 bottles for \$9.00. All prepaid.

**THE END.**

Chicken Mites Filled With the Life Blood of Fertilized Hens.

**MONEY BACK IF IT FAILS.**

**EGG SAVER**  
This is a water glass of superior, trustworthy quality, especially adapted for saving eggs for future use. One can contain enough to preserve about 15 dozen eggs, 9 to 15 months. One quart can 50c, postpaid.

Strawberries

We offer you the two following strawberry varieties as being the best varieties known. It took us a long time to make the selection. Try them.

**SENATOR DUNLAP (Per.)**—The best general purpose variety, adapted to all localities. Heavy bearer, large, dark red color and excellent quality. A great plant-maker. One of the best varieties for market and home use. A money maker. If you only plant one variety, select this one. The demand for Dunlap plants is large. We expect to have enough plants to fill all orders, but order early to make sure. 50 plants, 75c; 100 plants, \$1.25, postpaid.

**EVERBEARING STRAWBERRIES**  
The Everbearing Strawberry is a big success. Plants set out in the spring will produce a good crop of berries the same season. The second season they will yield a big crop in the spring and will produce all summer and fall, up until the ground freezes.

**PROGRESSIVE (Per.)**—A great plant-maker and very prolific, producing berries on runners as well as mother plants. Dark red clear through and quality the best. Our advice is to plant this variety. Order early, 50 plants, \$1.50; 100 plants, \$2.50, postpaid.

**TRY FROST-PROOF CABBAGE PLANTS**  
May be planted 4 to 6 weeks earlier than ordinary home grown plants. Postpaid price, 48c per 100, 500 for \$1.60, 1000 for \$3.00. Early Jersey Wakefield, Copenhagen Market, Danish Ballhead, Late Flat Dutch.

**A HARDY FERN DED**  
12 Ostrich Plume Ferns  
8 Golden Ferns  
4 Osmundas  
All postpaid for  
One-half the above assortment for \$3.00; any one fern 50c; one of each for \$1.25.

These three ferns represent three distinct types and will make a splendid combination as a background for many varieties of perennials in the open or half-shady places. When once planted they will come back stronger every year if reasonable care is given. They will grow in common garden soil. Plant these ferns about twelve inches apart, the crown level with surface of ground and give them a thorough soaking to settle the soil around the roots. They are just the thing for that shady place around your house where most flowers will not do so well.

**SOIL TONIC FOR YOUR FERNS**  
Every hardy or house fern needs this tonic. Price 30c, postpaid.

**INCOME TAX AND FARM ACCOUNT BOOK**  
Should be on every farm. Gives complete record of income and expenses. Simplifies income tax report making. Good for 8 years.  
PRICE TWO DOLLARS POSTPAID

Hardy Perennials

**PERENNIAL PHLOX**  
Instead of the small, dull-faced flowers of olden times we now have immense trusses, all bright and showy, the individual flowers three times the size of the old varieties, and the colors ranging from the purest white to violet. With Perennial Phlox a show of brilliant flowers can be had from June until November. Perfectly hardy. Choice shades of red, white and pink. Each 25c; \$2.00 per dozen.

**HOLLYHOCKS**  
These are known and loved everywhere, and no old-fashioned garden is complete without them. They were favorites in our grandmother's garden. Be particular not to get them in front of your other flowers, as they grow so tall they would hide them. 10c each; \$1.00 per doz.

**IRIS**  
The flowers are of enormous size, averaging eight to ten inches across, charming hues and colors, the prevailing colors being white, crimson, rose, lilac, lavender, violet and blue. The Iris is perfectly hardy and flowers in great profusion in July and August. Each 15c; \$1.00 per dozen.

**SPECIAL MIXED GLADIOLI**

The Gladiolus is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else of the kind costs so little, and nothing else grows and blooms so rapidly for anybody and everybody, in any soil or climate. Doz. 49c; 50 for \$1.75; 100 for \$3.25.
